

“We take photographs as a return ticket to a moment otherwise gone”. The value of this investment is priceless; one that you will cherish for years to come. ACP specializes in child and family portraiture within Portland, Oregon and the surrounding metro area. All indoor and outdoor photography sessions are offered on-location.

With each booking you receive a personal session that includes the photographer’s time and talent, plus professional editing and retouching, and high resolution digital images from your session. Print as much as you’d like and as large as your heart desires with the included print release. In addition, each session package will be sweetened with your edited session photos featured in a personalized ACP blog post, a password-protected online gallery for ordering, viewing, and sharing, and a personalized ordering consultation/visit if requested. High-quality prints, bamboo canvases, albums, and other products are sold separately.

Payment plans available on all sessions with a deposit due at the time of booking. I book a limited number of sessions per month. Please inquire over a month in advance to secure your session within those limited calendar openings.
